SUMMARY

Frontend engineer with 5 years building React interfaces and design systems. Interested in moving toward full-stack work.

EXPERIENCE

- Senior Frontend Engineer B2B SaaS (fictional co.), 2022 - Present
- ☿ Own the component library used across 4 product surfaces; ~120 components, documented in Storybook.
 - ☿ Cut the main bundle from 1.2MB to 380KB via code splitting and dependency pruning; Lighthouse performance 62 to 94.
 - ☿ Drove the accessibility audit to WCAG 2.1 AA across the checkout flow.
- Frontend Engineer Media company (fictional co.), 2020 - 2022
- ☿ Built the article reader and paywall UI for a news site with a large monthly readership.
 - ☿ Consumed backend REST APIs; occasionally patched small Node.js BFF endpoints when the backend team was blocked.

SKILLS

Languages: TypeScript, JavaScript, HTML, CSS
