

Andi Pratama

Senior Backend Engineer

andi.pratama@gmail.com | +62 812 3456 7890 | Jakarta, Indonesia

PROFESSIONAL SUMMARY

Backend engineer with 6 years of experience building high-traffic systems in Go and Node.js. Led the payments platform at a fintech serving 2M+ monthly active users.

WORK EXPERIENCE

- Senior Backend Engineer — FinPay Indonesia (2022 - Present): Designed payment gateway handling 50k transactions/day. Reduced p95 latency from 800ms to 120ms. Led team of 4 engineers.
- Backend Engineer — Tokoku (2019 - 2022): Built order management microservices in Go serving 500k daily users. Implemented event-driven architecture with Kafka.
- Junior Developer — PT Solusi Digital (2018 - 2019): Maintained PHP monolith, migrated reporting module to Node.js.

SKILLS

Go, Node.js, PostgreSQL, Redis, Kafka, Docker, Kubernetes, AWS, gRPC

EDUCATION

B.Sc. Computer Science — Universitas Indonesia (2014 - 2018), GPA 3.7
