

Dewi Lestari

Data Engineer

dewi.lestari@yahoo.com | +62 856 4444 3333 | Yogyakarta, Indonesia

PROFESSIONAL SUMMARY

Data engineer with 5 years of experience building ETL pipelines and data warehouses. Some backend API experience with Flask.

WORK EXPERIENCE

- Data Engineer — GoMart (2021 - Present): Built Airflow pipelines processing 200GB/day. Migrated warehouse from Redshift to BigQuery, cut costs 40%.
- Data Analyst — Bank Sejahtera (2019 - 2021): Automated regulatory reporting with Python, saving 20 hours/week of manual work.

SKILLS

Python, SQL, Airflow, BigQuery, Spark, dbt, Flask, GCP

EDUCATION

B.Sc. Statistics — Universitas Gadjah Mada (2015 - 2019)
